Dental

Child's Name: _____
Dentist's Name: _____
Address: _____

_____
Telephone: _____

❒ Dentist has been informed of child's medical condition and medical specialists' recommendations.

All children should have routine dental care. Such care may be even more important when your child has a special health care need. He or she may need to be followed by a dentist with special skills. Consult with your family dentist or your child's medical specialist to determine if he or she requires specialized dental services.

Before your child is examined, the dentist should have information regarding your child's medical condition and current care. Any precautions recommended by your child's medical specialist should be discussed with the dentist. It is also essential that you provide the dentist with a list of current medications received by your child.

You can use the space below to keep track of your child's dental appointments.
